Executive summary

The objectives of *D6.3 Project Website* are:

- (i) to develop an attractive website following the visual identity established in task 6.3;
- (ii) to set up the project social media accounts: Twitter, Facebook, YouTube and LinkedIn.

This document has been elaborated by the RRI-LEADERS partner Fundació Catalana per a la Recerca i la Innovació and consulted with the coordinator, the Applied Research and Communications Fund (ARC Fund). The website has been presented to all partners during the regular monthly online meeting on 22 April 2021. Following the feedback by the partners the website was finalised and became fully operational on 30 April 2021. This document presents a brief introduction to the main sections of the website.

Website and social media

The project website has been developed following the visual identity and with the url <https://www.rri-leaders.eu>. It complies with the EU directive of accessibility¹ so that everybody can access its contents. The website is the key tool to use in the promotion of RRI-Leaders' ideas and results to the general public. All the project outputs of public nature will be displayed there. The website includes the contacts with all the project partners for interested stakeholders.

The website has the following structure:

- Homepage
 - Introduction to the project
 - Concept
 - Objective
 - About us
 - Outcomes
- Upper menu:
 - Home
 - The Project
 - About RRI
 - Publications
 - The Consortium
- Two footers:
 - Specific of the project with an email address for contact, icons for the social media plus the logo of the partner in charge of its management
 - Mandatory with the EU logo and the text: This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101006439.

Social media. Twitter, Facebook, LinkedIn and YouTube accounts were launched during the first months of the project and will be updated regularly throughout the project. They will be used for raising awareness about the project, its activities and disseminating its results.
